Kanawha County Commission
407 Virginia Street East
Charleston, WV 25301

Dear Commissioners:

The Kanawha County Solid Waste Authority is requesting \$25,000 from your federal ARP Funds to help cover the cost of our annual rental fee for our baling operation at PPSI Circle between the Edens Fork exit and Route 21. Our Board believes this is the best use of these funds and would benefit our ability to recycle. The annual rental cost is \$18,000 (\$1,500 per month). The annual cost of phone and Internet at the rental site is \$2,000 (\$ 168 per month). The annual cost of the portable toilets at the rental site is \$2,640 (\$220 per month). The annual electric cost at the rental site is \$ 1,400 (about \$115 per month). Our gasoline and diesel cost for traveling to and from this site each day is about \$1,000 per year. This would be a big help for our ability to operate without running near a deficit from month to month.

We would strongly appreciate your consideration of this request.

Sincerely,

Kay M. Summers
